Primary Examiner

The following is an examiner's statement of reasons for allowance: The prior art fails to teach a system for manipulating a fluid and its method comprising means for forming a plurality of optical vortices; and a plurality of particles positioned about a rim of each of the vortices, each spinning about its respective axis and rotating about the respective optical vortex, in which the spinning and rotating of the particles pumps the fluid through a region including the vortices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

1) Wilson et al 5,170,890 disclose an optical system for trapping particles having a focusing lens.
